ADVANCE MEN OUT ALONG ROUTE OF COUNTY TOURISTS

Secretary Bodine Leading Advertising Party Over Route To Be Taken Next Week

Better Publicity Assures fine Crowds To Greet Tourists and the Fifth Regiment Band.

Secretary Bodine, of the chamber of commerce, Harry Watson, with a paste-pot and a liberal supply of posters, left this morning for a trip over the route of the Get Acquainted Tour to acquaint the people of the forty-two towns to be visited by the trippers of the approaching visit of a delegation of Clearfield business men.

The party will continue the tour tomorrow morning, and will continue until every town on the schedule has been visited. Window cards and posters, announcing the tour and its purpose, are being posted in every available spot, and it is believed that the publicity thus gained will aid materially in bringing out good crowds to greet the Clearfielders.

The Fifth Regiment Band is rehearsing in preparation for the trip, and its members are looking forward eagerly to the novel experience of making a county-wide tour in two days. Everywhere the band goes it is assured of a rousing reception because of its fine reputation throughout the county and state.

Every committee having to do with the tour is hard at work completing the last detail. A repair car has been arranged for to insure quick and competent assistance in case of trouble which will be in charge of experienced automobile men.

ORATORICAL SILVER MEDAL CONTEST TO BE HELD SOON

An oratorical silver medal contest will be held on Friday evening, June 16, at Blue Ball under the auspices of the W. C. T. U. Six contestants from different parts of the county have entered and will compete for the handsome silver medal which will be presented to the winner. The essays will be written about temperance subjects and will contain strong arguments for the elimination of the liquor traffic. A beautiful musical program has been prepared for the occasion.

Owing to the excellent service on the P. R. R. between Clearfield and Blue Ball, which leaves Clearfield at 6:40 and returns about 11:00, it is desired that a good attendance be present from Clearfield and surrounding towns to encourage the W. C. T. U. who holds the contests, and to encourage the young men who take part in this good work.

WOMAN'S AUXILIARY TO THE HOSPITAL MEETS

A very successful meeting of the Woman's Auxiliary of the Clearfield Hospital was held yesterday afternoon at home of Mrs. A. O. Smith. Nineteen members were present. The monthly report of the hospital was read. During the past month \$26.00 was netted from hospital teas and altogether \$141 has been made from the teas. Much interest and co-operation has been taken in the work.

Undiluted Americanism, Slogan of Hughes' Campaign For Presidency

New York, June 13.—(By United Press)—"Undiluted Americanism" is to be the slogan of Charles Evans Hughes in his campaign for the presidency. He coined the phrase today in his talk with the newspaper men.

In his talk he displayed a "pep" and fire almost Rooseveltian, biting form," he said, "is one of undiluted Americanism. Anyone who supports me supports a thorough going out and out American policy and nothing else."

In a telegram received today by Hughes from Oscar Straus, Progressive, he said that he is a "regular fellow."

COMMISSIONERS BLOCK PLANS OF BOROUGH ENGINEER

Will Not Permit Construction of Garbage Disposal Plant on County Home Grounds

Plan Included Later Construction of Sewage Disposal Plant in Connection with Garbage Plant.

The county commissioners have unanimously rejected the proposal of the borough authorities to lease for a long term of years a strip of land along the river front at the county home, for the purpose of erecting thereon a garbage disposal plant.

This decision of the commissioners was made known to the borough council in a certified copy of a resolution adopted by the commissioners at a recent meeting. No reasons were set forth in the resolution further than it was the opinion of the commissioners that the proposed plant would constitute a menace and nuisance to the inmates of the home.

Borough Solicitor Urey, as a committee of one, took the matter up with the commissioners a week ago, and sought to explain to them that what the borough proposed doing would in no way interfere with the health or comfort of the county home charges, but the commissioners were unable to see it that way.

The borough's only alternative is to erect the plant on the site of the present dump, or buy a piece of land nearer town. The dump site is too inaccessible, and probably will be rejected in favor of the purchase of an entirely new site in a location more desirable.

The idea of building the garbage disposal plant along the river front was suggested by the borough engineer in view of the possibility of having, at an early date, to erect a sewage disposal plant as well. When this plant is built it will have to be near the river, or the entire sewage system of the borough must be torn up. At present the main runs parallel with the river, and empty into the stream below town. The garbage and sewage plants should both be on the same site in order that double expense of upkeep may be obviated, and it is a keen disappointment to the borough authorities that the county will not consider the proposition submitted.

M'COOMBS INVITES BULL MOOSER TO JOIN DEMOCRATS

Takes First Move to Kidnap Progressive Party Orphaned by Roosevelt

Says Democrats Offer Safety to Former Enthusiastic Followers of Colonel Now Stumbling on to Destruction.

LOWELL MELLETT (United Press Staff Correspondent)

St. Louis, June 13.—Democratic National Chairman William S. McCombs today wired Bainbridge Colby of New York an invitation to join the Democratic party. His action was based on Colby's reputation of Roosevelt.

McCombs' action was the first move made in the effort to kidnap the four million voters of the Progressive party whom they consider orphaned by Roosevelt's decision not to be their candidate as outlined by the United States yesterday. The telegram said:

"I have read your statement. It appears that Colonel Roosevelt has attempted to send his former enthusiastic followers stumbling along to destruction. The Democrats offer them safety."

Signed William S. McCombs.

Delegates in Wreck

Owensboro, Ky., June 13.—Kentucky Democrats bound for the national convention in St. Louis were injured when the Louisville, Henderson & St. Louis train No. 14 was wrecked near here early today. Two pullmans left the rails and another overturned. Many persons were injured and some of them were rushed to hospitals where none were found to be in a serious condition.

Mayor John H. Buschmeyer, of Louisville was thrown from an upper berth and badly bruised. Included in the party of Democrats were Governor A. O. Stanley, former Governor James McCreary, General W. B. Haldeman and Lieutenant General George Blank. They were unhurt. A split rail was given as the cause of the wreck. The train was delayed two hours.

Bryan is Banished

St. Louis, June 13.—(By United Press)—William Jennings Bryan arrived today and found the Democratic National convention ready to tell him "Good bye and God bless you." Nothing could be more indicative of how Democratic times have changed than the fact that the great Commoner, four times a dominant figure in national conventions and three times candidate for presidential honors, now figures in that party a mere alternate from Nebraska and a reporter. In all the platform talk heard today there was no indication that the former secretary of state would have a hand in the hewing of the plank.

Bryan having promised not to inject the prohibition issue into the convention the Democrats were today willing to let Bryan alone with hopes that he would also let the Democrats alone and raise no disturbance in the harmony program. Bryan came to the Democratic convention twenty years ago and his silver-tongued oratory won much fame.

Washington, June 13.—(By United Press)—Senator Thomas, of Colorado, today introduced a resolution for an amendment to the constitution prohibiting members of the Supreme Court being candidates for public office. This is in line with the Democratic program which assailed Justice Hughes' action in leaving the bench for the Republican nomination.

300 ATTEND SALE OF SEATED LANDS AT COURT HOUSE

First Legitimate Sale Since 1910, When Error in Old Law Caused Suspension of Sales

New Provisions of Law Governing Sales Fair to Property Owners and to the Taxing Authorities.

Three hundred buyers of real estate were present yesterday afternoon in the arbitration room of the court house to attend the first sale of seated lands since 1910. Eight hundred parcels were offered by the treasurer, and practically all of them were bid in.

This is the first legitimate sale of seated lands since it was discovered in 1910 that the law of 1901 was defective and the sales were abandoned.

In the 1915 session of the legislature, Senator Miller was the father of a bill empowering county treasurers to resume seated sales. In effect the new law is favorable to both property owners and the taxing authorities, and it sets aside a decision of the superior court, made in 1915, invalidating tax liens in the office of the prothonotary, which was the only method by which delinquent taxes on real estate could be collected.

None of the properties disposed of yesterday by the treasurer were of great individual value, although in the aggregate several thousand dollars in values were secured by investors by the payment of the relatively small sums due the county.

KITCHENER PAID HIGH TRIBUTE BY ENGLISH

King and Queen Attend Services in St. Paul's Cathedral.

London, June 13.—(By United Press)—The late Lord Kitchener, lost when the cruiser Hampshire was sunk off Orkney Islands, was today paid a tribute as great as England has ever given her departed heroes. The service was in St. Paul's cathedral. The King and Queen, persons attached to the Royal House, statesmen, soldiers and many others attended the funeral service, jamming the cathedral to the door, while thousands stood outside in the rain with heads bared.

The streets were so jammed that progress of the automobiles was impeded. Thousands of mourners, men and women, thronged about the cathedral. Many were in deep mourning, expressing the loss as personal.

PRESIDENT WILSON SPEAKS TO WEST POINT GRADUATES

"When America Speaks She Means What She Says" President Declares

West Point, June 13.—(By United Press)—"The world is going to know that when America speaks she means what she says," President Wilson told the military academy graduating class today. A moment before he had said, "undoubtedly gentlemen, it is the duty of Americans to be prepared. President Wilson promised in behalf of the United States to uphold the Monroe doctrine and promised that America will be ready to join the other nations to see that 'that kind of justice prevails everywhere that we believe in.'"

To be military does not mean militaristic, the president said. He asked the West Point men not to forget that they are citizens first. Mentioning the "small number" who love their country more than the country of their adoption, he said "Nobody and does not put America first can desert her."

SABBATH SCHOOL ASSOCIATION IN CONVENTION HERE

Interesting Programs Will Be Given at Afternoon and Evening Sessions

Many Delegates Representing Sixteen Schools Comprising This District Are in Attendance.

The annual convention of district number one of the Clearfield County Sabbath School association met in the Presbyterian church of Clearfield this morning with an extra large number in attendance. The district includes all of Lawrence township and the borough of Clearfield, in which there are sixteen Sabbath Schools, all entitled to three members in addition to their pastors and superintendents.

Delegates representing all these schools are in attendance and many of the pastors and superintendents. It is one of the largest and expected to be the most successful convention ever held by the association.

The first session was called to order this morning at ten thirty o'clock by the president of the district. Following devotional exercises B. M. Fast, of the Clearfield Presbyterian church made the address of welcome to the delegates. The address of the morning was delivered by N. A. Ogden, president of District No. 1. At eleven o'clock the registration and assignment of delegates took place. The convention adjourned shortly before twelve o'clock.

The afternoon session opened at one-thirty with a larger attendance than the morning meeting. Devotional exercises were led by Ensign Robert Henderson, of the Clearfield Salvation Army which was followed by the appointment of committees for the ensuing year. Reports from the district officers and from delegates were made which showed the work done during the past year accomplished much good.

The following is the program of the convention.

Morning
10:30 Devotional Service.
10:45 Address of Welcome, B. M. Fast.
Address, N. A. Ogden, President District No. 1.

BOMB SHELL TESTIMONY GIVEN IN ORPET TRIAL

Miss Lambert Threatened to Kill Herself, Says Witness

Court Room, Waukegan, Ill., June 13.—(By United Press) That Marian Lambert threatened to kill herself a few days before she was found dead in Helma woods was the bomb shell testimony that Josephine Demers, Marian's closest friend, sprang in the trial of Will Orpet for Marian's murder this afternoon. The suicide threats, Josephine stated were made the Sunday previous. It was at Marian's birthday party four days before her body was found.

The testimony came on cross examination by the defense after the state which had hoped Josephine would be its principal witness succeeded in drawing from her only statements that pointed toward suicide.

"Marian was frequently depressed and melancholy when alone with me but when in company with others she was abnormally gay," Miss Demers testified. On the Sunday afternoon of her eighteenth birthday she had a crying spell. She came to me and said, "Oh, Joe, I can't be happy." Then she threatened to kill herself if Orpet married Celestia Yuper. I kidded her about it and threatened to tell her parents about her relations with Orpet after she was dead. "Don't tell my father," she said. Frequently I told Marian that I proposed to tell her mother.

Governor to Appoint New Road Commissioner Soon

Harrisburg, June 13.—Governor Blumberg will name a highway commissioner to fill the vacancy created by the death of Robert J. Cunningham in the very near future. The appointment, it is said, will be the first of several to be made by the executive before he takes his accustomed vacation.

While a number of candidates are being quietly pushed, it is generally believed on Capitol Hill that the chances between Charles E. Patton, the present secretary of agriculture, and Frank S. Black, of Somerset, with Patton standing the best chance. Patton's friends are urging his ability as an organizer, his business experience and the fact that the farmers of the state have confidence in him as his chief assets.

While reports have been current that the now vacant post of insurance commissioner would not be filled until after December, when Charles Ambler could not be named until after his term as a member of the legislature expires. The governor must also name a manager for the insurance fund and a chief tax marshal, besides a number of men for minor posts in various departments. It is stated that the recommendation made by the "governor's friends at Philadelphia" will be given serious consideration as far as the tax marshal post is concerned.

Regarding the appointments in general the governor has considered about thirty names, that no Penrose or other name will be placed on guard. There is no doubt that the administration has been convinced that the "governor's party" has a place in the new cabinet. The first test of the governor's policy in this respect will be the appointments of the board of education. The appointments must come this week, since the terms of the present board expire on June 15. It is a rumor that William A. Magee, now examiner of the state school and agriculture department, is being seriously considered for this matter.

TUESDAY EVENING, JUNE 13, 1916.

It has come to pass when even a fine day approaches with fear and trembling.

Hon. Winjaybrine is headed for St. Louis to report the convention for the New York World. How different, how different! Winjay himself was the convention in Baltimore four years ago.

Democrats are exercised over the idea of going to the supreme court for a Presidential candidate. It would be better to smash up the whole court than to go to the white house this year for the next President.

On the third ballot there was one Pennsylvania delegate absent. Good politics. Had the result been disgusting to the people back home, that one absentee would have furnished an alibi for all of the seventy-six delegates.

There is not much danger of wholesale desertion to the Democratic party by members of the Progressive party. Roosevelt drew largely on the Jeffersonians when the Progressives were organized, and it is only to be expected that these will return to their first love when the Progressives and Republicans become reunited.

BEAUTY, CLOSE AT HAND

Have you ever stood in the center of the prosaic bridge which spans the Susquehanna at Market street and watched the play of glorious moonlight on the placid waters of the neglected and unappreciated old stream? You have to go only that far to expand fully to one of many scenes of incomparable beauty which surround us on every side.

THE PAVING PROBLEM.

Only to stay-at-homes and those whose vision does not compass the scene of the busy transportation agencies of industry is there no immediate need for the seventy-five thousand dollars which the borough purposes to expend on its streets this summer. To such the repaving project is a wasteful scheme of joy-riders whose only desire is for smooth pavements over which to race noisy automobiles.

Every hour of every day the business men of Clearfield are suffering the penalty of atrocious streets. Every hour of every day strangers who pass over the ridges and gullies of our pavements depart to return on more—and worse still, to spread the news of our civic disgrace.

It is no pet scheme of the automobilists, this repaving project. It is a demand properly made by the enterprisers and industries of the town for suitable streets over which to transport their wares, and the broader demand of civic pride which wants our streets to be a credit instead of a discredit to the borough.

BERNHARDT'S COUSIN ONE OF CHICAGO'S POOR OLD MEN

Chicago, June 13.—(By United Press)—Maurice Bernhardt, first cousin of the world's greatest actress, Sarah Bernhardt, lives today by himself in a dingy rooming house in North Chicago. He is 82 years old and has no family.

Bernhardt is a hero of the Civil war. His name was on the roll of the most prominent soldiers in Paris. Maurice Bernhardt came to America as courier of the French ambassador in 1890.

Some years later Bernhardt was appointed official interpreter by President Lincoln. Maurice speaks many languages—English, French, German, Spanish, Italian, Flemish, Yiddish, Portuguese and Dutch.

At the outbreak of the Civil War Maurice joined the Union forces and was appointed first lieutenant of the cruiser Kearsarge.

the memorial cruise which resulted after two years in the sinking of the Confederate raider Alabama off the coast of Charleston.

After his year in the navy Bernhardt was given his honorable discharge.

He lost a small fortune in New York in the petroleum business, then came to Chicago. He eked out his existence here by the sale of perfume.

His son, a painter, recently died in the maintenance of his son, three children in orphan asylum.

Bernhardt has not heard from his cousin Sarah since the war started before the war they were in constant communication.

Fashion Hints By Margaret Mason

(Written for the United Press)

When you do your bathing suit, you'll be on it with a vengeance on the beach to bathe you in a new suit.

You'll find you have a following of people with you and here it follows everyman will follow out.

New York, June 10.—If you want to take a dip then you'd better take a trip and select a bathing suit that is best, for they are making more and more suits for bathing on the shore and to wear them in the wet you had better take care.

In fact most everyone is for bathing in the sun and if you have desire for surf and breeze, a one-piece suit is best, it will stand the aqua test and it is a perfect figure simply made. But if you think it fun just to immerse near the sun—and of course a one-piece suit is much better, there are tulleed suits, and the brightest or are for. They come to give human hands or more of tulleed they are made in all or any shade but there's one of green that simply is divine. The shirt is ruffled four and they simply can't be more because the neck is ruffled it draws the line. The neck is rather low with a ruffled round top and the sleeves of course are nothing, much to mention. It's cap is ruffled with its knicker on a way and to make the appearance they have an intention.

Another out of blue flaunts, one that very new, around the hip, he have me to a hoop. There are red tops by and fore down the skirt and then some more around the skirt out the hoop that is the coup. And so if you are brave in the trough of ocean wave you can go and roll your hoop with perfect ease. So he's a one-piece suit, but first you may think it's a bit of a hoop, but for bathing suits they're soon each a piece.

With sandals on her feet, she's close her little feet, her feet are like a Russian ballet for her bathing suit, her feet are like a Russian ballet for her bathing suit, her feet are like a Russian ballet for her bathing suit.

Near the hip are ribbon placed that hold the skirt down, and the skirt is held down by the ribbon.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poison and impurities which are generated in the blood and then absorbed into the body. The blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive harmless and is made from the acid of grapes and lemon juice, combined with lithia.

Here you have a pleasant, effective, safe drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys, as well.

BELGIAN CAPITAL NOW OVERRUN WITH SPIES

Everlasting Espionage Makes Life For Belgians a Burden

Maastricht, June 12.—(By United Press.) Rumor at its worst or Constantine under Abdul Hamid never have been so overrun with spies as Brussels is at the present time.

Everlasting espionage has made life a burden for the Belgians and nowhere in the country are conditions so terrible as in the capital, according to reliable information smuggled across the frontier, despite all the vigilance of the kaiser's secret agents.

The spies are declared to be well paid but only according to results. They do not draw regular salaries, but get their rewards on the strength of their reports' volume and supposed value.

Consequently, if they have no genuine information to turn in to their superiors, it is charged that they manufacture it. To be accused by them means arrest and much difficulty at the best. It is more likely to mean prolonged imprisonment.

It may mean a firing squad. A reign of terror has resulted. No body feels safe, even in the privacy of his own home.

The people live in a constant state of nervous dread. A tap on the shoulder, prison and perhaps, death may come at any instant.

In Brussels alone it is declared there are 1,500 spies. How busy they are is proved by the extravagant style in which they live.

Whenever funds run short fresh victims must be found.

Women are numerous among the secret agents. They may be found all up and down the social scale, from the relative of General von Bissing, who took advantage of her position to keep an eye on the most fashionable functions in the most exclusive residences, down to the humblest seamstress or domestic servant.

There are officers' and professors' wives, who keep watch in middle class circles.

There are the demimondaines, who send in reports from the theatres, restaurants and boulevards.

There are men formerly prominent in business, of which now, practically, there is none, who use their former connections and acquaintance to keep the German authorities posted concerning doings in financial and industrial circles.

Even the most ordinary working man is carefully watched.

A case is reported from the Rue de Flandre, in Brussels, where the driver of a brewery wagon and his assistant were arrested because, after they had unloaded a heavy barrel of beer, one of them remarked:

"The Kaiser himself could not have done it so neatly."

MANY VOTES AWAIT THE HUSTLERS IN THE BIG AUTOMOBILE CONTEST

(Continued From Page One)

activity and determined effort will surely bring success.

It must be remembered also that this campaign and competition for the \$1,400 in fine prizes is no light or trifling matter. The prizes selected and offered by the Progress are of the very highest order and the contest as a whole or worthy of the serious consideration and hearty support of every fair minded person. While the competition will be carried on in the most friendly manner, it will nevertheless, be a very important and serious matter for those who are taking part. It is therefore the business of the contest department to see that interests of all contestants are carefully guarded and that all have the same privileges and opportunities.

The extremely high order of the contest plans and prizes, as well as the very representative personnel of the candidates gives the Progress contest a very unusual aspect and places on a plane far above that of the average campaigns of similar character. The winning of brand new, high grade automobile of a reliable and exceedingly popular make, with every modern equipment is certainly a matter of great moment to all. This prize is only one of the many that are offered absolutely without cost, all of which are indeed well worth working for. The winning of the prizes will carry with it much honor for the winners and will be a mark of victory—an undisputable declaration of achievement. Those who go into the contest getting in an earnest and determined manner are sure to meet with very gratifying results, and during these early days and weeks of the race will the success of the contenders be determined by the effort and tact that they use.

The contest department of the Progress office will be open until 9 o'clock tonight and all candidates should make an effort to turn in as many votes and subscriptions as possible in order to keep their published vote up in the paper. This is exceedingly important during the early stages of the contest. All questions will be gladly answered and the contest manager invites inquiries.

"COLONEL BILL" THE ONLY DELEGATE IN ST. LOUIS

William Fairman Refuses to Ride on Machine Special—Wears Conventional Black

Walter J. Christie, staff correspondent, sends the following to the Pittsburgh Gazette Times:

St. Louis, June 13.—Col. "Bill" Fairman, of Punxsutawney, is the only Pennsylvania delegate to the Democratic National convention in the city. He arrived yesterday and is quartered at the New Plaza, the "dry" hotel National Committeeman A. Mitchell Palmer selected as the headquarters for the Keystone representatives.

A year or more ago when President Wilson had a postmaster to name in Punxsutawney he failed to notice Col. "Bill" who figured that a half century of loyalty to the Democratic party ought to bring its reward. Mr. Palmer, who places his O. K. on Pennsylvania postmasters, decided that some other Democrat in Groundhogville was more deserving than the picturesque Mr. Fairman.

Busted Machine State

In the recent primaries Col. "Bill" showed the Democratic machine in Pennsylvania that if he could not get a postmaster, he could bust the delegate state in the Twenty-seventh Congressional district. He is here with his credentials in his pocket and W. L. Wall feeling independent. He remarked, "that he is here to vote as he pleases."

The Colonel intimated Ashley McCracken that he had a place on the Pennsylvania special, but he declined any gratuity and just to show that his heart still beats true to the party of Jefferson, he sent in a contribution of \$50 to the campaign fund for this fall's election. Fairman Col. "Bill" has a trunk with him. St. Louis is going to miss a good deal if he was killed on that black even the scarlet tie having been lost.

RETIREMENT OF ADMIRAL FISKE

Washington, D. C., June 13.—The United States navy lost one of its best known officers today by the retirement for age of Rear Admiral Bradley A. Fiske.

Admiral Fiske was one of the last survivors on the active list of the officers who fought with Dewey at Manila Bay. Until about a year ago he was aid for operations in the Navy Department, a position he relinquished because of views concerning the administration of the various fleets that did not coincide with the ideas of Secretary Daniels. Subsequently he was attached to the Naval War College.

This spring he was called upon to testify before the House Committee on Naval Affairs and was outspoken in his criticism of the navy.

Admiral Fiske was born at Lyons, N. Y., June 13, 1854, and was graduated from the Annapolis academy in 1874 with second honors in his class. He was navigator of the Petrel at the battle of Manila, and was reported by her captain for "eminent and conspicuous conduct in battle" and by Admiral Dewey for "heroic conduct."

As a flag officer he served as division commander with marked success and was at the head of the fleet tactical board. In training for the duties of higher command he had an unusual experience. Twice in attendance at the Naval War College, he afterward served as a member of the general board. He was one of the joint board on the Panama Canal defenses.

In the course of his varied service Admiral Fiske has written many articles of great interest and instructive value on professional topics, particularly on naval policy and strategy and tactics.

He is also the inventor of a number of valuable instruments and apparatus, most of which are for naval use. His most important inventions are an apparatus, for lowering and hoisting ship's boats in a s-w-ay, an electrical range finder, the naval telescope sight, the electric warning whistle which has been used in all recent ships, the electric semaphore of day signals, the naval telescope mount, the turret range finder, and the standard, a portable optical instrument for quickly determining the distance of a vessel, when the height of its mast is known, now in use in all our ships. His naval telescope has eliminated all errors in sighting heavy guns at sea, and is nearly the most important invention of recent years.

ADVANCE MEN OUT ALONG ROUTE OF COUNTY TOURISTS

Secretary Bodine Leading Advertising Party Over Route To Be Taken Next Week

Better Publicity Assures fine Crowds To Greet Tourists and the Fifth Regiment Band.

Secretary Bodine, of the chamber of commerce, Harry Watson, with a paste-pot and a liberal supply of posters, left this morning for a trip over the route of the Get Acquainted Tour to acquaint the people of the forty-two towns to be visited by the trippers of the approaching visit of a delegation of Clearfield business men.

The party will continue the tour tomorrow morning, and will continue until every town on the schedule has been visited. Window cards and posters, announcing the tour and its purpose, are being posted in every available spot, and it is believed that the publicity thus gained will aid materially in bringing out good crowds to greet the Clearfielders.

The Fifth Regiment Band is rehearsing in preparation for the trip, and its members are looking forward eagerly to the novel experience of making a county-wide tour in two days. Everywhere the band goes it is assured of a rousing reception because of its fine reputation throughout the county and state.

Every committee having to do with the tour is hard at work completing the last detail. A repair car has been arranged for to insure quick and competent assistance in case of trouble which will be in charge of experienced automobile men.

ORATORICAL SILVER MEDAL CONTEST TO BE HELD SOON

An oratorical silver medal contest will be held on Friday evening, June 16, at Blue Ball under the auspices of the W. C. T. U. Six contestants from different parts of the county have entered and will compete for the handsome silver medal which will be presented to the winner. The essays will be written about temperance subjects and will contain strong arguments for the elimination of the liquor traffic. A beautiful musical program has been prepared for the occasion.

Owing to the excellent service on the P. R. R. between Clearfield and Blue Ball, which leaves Clearfield at 6:40 and returns about 11:00, it is desired that a good attendance be present from Clearfield and surrounding towns to encourage the W. C. T. U. who holds the contests, and to encourage the young men who take part in this good work.

WOMAN'S AUXILIARY TO THE HOSPITAL MEETS

A very successful meeting of the Woman's Auxiliary of the Clearfield Hospital was held yesterday afternoon at home of Mrs. A. O. Smith. Nineteen members were present. The monthly report of the hospital was read. During the past month \$26.00 was netted from hospital teas and altogether \$141 has been made from the teas. Much interest and co-operation has been taken in the work.

COMMISSIONERS BLOCK PLANS OF BOROUGH ENGINEER

Will Not Permit Construction of Garbage Disposal Plant on County Home Grounds

Plan Included Later Construction of Sewage Disposal Plant in Connection with Garbage Plant.

The county commissioners have unanimously rejected the proposal of the borough authorities to lease for a long term of years a strip of land along the river front at the county home, for the purpose of erecting thereon a garbage disposal plant.

This decision of the commissioners was made known to the borough council in a certified copy of a resolution adopted by the commissioners at a recent meeting. No reasons were set forth in the resolution further than it was the opinion of the commissioners that the proposed plant would constitute a menace and nuisance to the inmates of the home.

Borough Solicitor Urey, as a committee of one, took the matter up with the commissioners a week ago, and sought to explain to them that what the borough proposed doing would in no way interfere with the health or comfort of the county home charges, but the commissioners were unable to see it that way.

The borough's only alternative is to erect the plant on the site of the present dump, or buy a piece of land nearer town. The dump site is too inaccessible, and probably will be rejected in favor of the purchase of an entirely new site in a location more desirable.

The idea of building the garbage disposal plant along the river front was suggested by the borough engineer in view of the possibility of having, at an early date, to erect a sewage disposal plant as well. When this plant is built it will have to be near the river, or the entire sewage system of the borough must be torn up. At present the main runs parallel with the river, and empty into the stream below town. The garbage and sewage plants should both be on the same site in order that double expense of upkeep may be obviated, and it is a keen disappointment to the borough authorities that the county will not consider the proposition submitted.

M'COOMBS INVITES BULL MOOSER TO JOIN DEMOCRATS

Takes First Move to Kidnap Progressive Party Orphaned by Roosevelt

Says Democrats Offer Safety to Former Enthusiastic Followers of Colonel Now Stumbling on to Destruction.

LOWELL MELLETT (United Press Staff Correspondent)

St. Louis, June 13.—Democratic National Chairman William S. McCombs today wired Bainbridge Colby of New York an invitation to join the Democratic party. His action was based on Colby's reputation of Roosevelt.

McCombs' action was the first move made in the effort to kidnap the four million voters of the Progressive party whom they consider orphaned by Roosevelt's decision not to be their candidate as outlined by the United States yesterday. The telegram said:

"I have read your statement. It appears that Colonel Roosevelt has attempted to send his former enthusiastic followers stumbling along to destruction. The Democrats offer them safety."

Signed William S. McCombs.

Delegates in Wreck

Owensboro, Ky., June 13.—Kentucky Democrats bound for the national convention in St. Louis were injured when the Louisville, Henderson & St. Louis train No. 14 was wrecked near here early today. Two Pullmans left the rails and another overturned. Many persons were injured and some of them were rushed to hospitals where none were found to be in a serious condition.

Mayor John H. Buschmeyer, of Louisville was thrown from an upper berth and badly bruised. Included in the party of Democrats were Governor A. O. Stanley, former Governor James McCreary, General W. B. Haldeman and Lieutenant General George Blank. They were unhurt. A split rail was given as the cause of the wreck. The train was delayed two hours.

Bryan is Banished

St. Louis, June 13.—(By United Press)—William Jennings Bryan arrived today and found the Democratic National convention ready to tell him "Good bye and God bless you." Nothing could be more indicative of how Democratic times have changed than the fact that the great Commoner, four times a dominant figure in national conventions and three times candidate for presidential honors, now figures in that party a mere alternate from Nebraska and a reporter. In all the platform talk heard today there was no indication that the former secretary of state would have a hand in the hewing of the plank.

Bryan having promised not to inject the prohibition issue into the convention the Democrats were today willing to let Bryan alone with hopes that he would also let the Democrats alone and raise no disturbance in the harmony program. Bryan came to the Democratic convention twenty years ago and his silver-tongued oratory won much fame.

Washington, June 13.—(By United Press)—Senator Thomas, of Colorado, today introduced a resolution for an amendment to the constitution prohibiting members of the Supreme Court being candidates for public office. This is in line with the Democratic program which assailed Justice Hughes' action in leaving the bench for the Republican nomination.

300 ATTEND SALE OF SEATED LANDS AT COURT HOUSE

First Legitimate Sale Since 1910, When Error in Old Law Caused Suspension of Sales

New Provisions of Law Governing Sales Fair to Property Owners and to the Taxing Authorities.

Three hundred buyers of real estate were present yesterday afternoon in the arbitration room of the court house to attend the first sale of seated lands since 1910. Eight hundred parcels were offered by the treasurer, and practically all of them were bid in.

This is the first legitimate sale of seated lands since it was discovered in 1910 that the law of 1901 was defective and the sales were abandoned.

In the 1915 session of the legislature, Senator Miller was the father of a bill empowering county treasurers to resume seated sales. In effect the new law is favorable to both property owners and the taxing authorities, and it sets aside a decision of the superior court, made in 1915, invalidating tax liens in the office of the prothonotary, which was the only method by which delinquent taxes on real estate could be collected.

None of the properties disposed of yesterday by the treasurer were of great individual value, although in the aggregate several thousand dollars in values were secured by investors by the payment of the relatively small sums due the county.

KITCHENER PAID HIGH TRIBUTE BY ENGLISH

King and Queen Attend Services in St. Paul's Cathedral.

London, June 13.—(By United Press)—The late Lord Kitchener, lost when the cruiser Hampshire was sunk off Orkney Islands, was today paid a tribute as great as England has ever given her departed heroes. The service was in St. Paul's cathedral. The King and Queen, persons attached to the Royal House, statesmen, soldiers and many others attended the funeral service, jamming the cathedral to the door, while thousands stood outside in the rain with heads bared.

The streets were so jammed that progress of the automobiles was impeded. Thousands of mourners, men and women, thronged about the cathedral. Many were in deep mourning, expressing the loss as personal.

PRESIDENT WILSON SPEAKS TO WEST POINT GRADUATES

"When America Speaks She Means What She Says" President Declares

West Point, June 13.—(By United Press)—"The world is going to know that when America speaks she means what she says," President Wilson told the military academy graduating class today. A moment before he had said, "undoubtedly gentlemen, it is the duty of Americans to be prepared. President Wilson promised in behalf of the United States to uphold the Monroe doctrine and promised that America will be ready to join the other nations to see that 'that kind of justice prevails everywhere that we believe in.'"

To be military does not mean militaristic, the president said. He asked the West Point men not to forget that they are citizens first. Mentioning the "small number" who love their country more than the country of their adoption, he said "Nobody and does not put America first can desert her."

SABBATH SCHOOL ASSOCIATION IN CONVENTION HERE

Interesting Programs Will Be Given at Afternoon and Evening Sessions

Many Delegates Representing Sixteen Schools Comprising This District Are in Attendance.

The annual convention of district number one of the Clearfield County Sabbath School association met in the Presbyterian church of Clearfield this morning with an extra large number in attendance. The district includes all of Lawrence township and the borough of Clearfield, in which there are sixteen Sabbath Schools, all entitled to three members in addition to their pastors and superintendents.

Delegates representing all these schools are in attendance and many of the pastors and superintendents. It is one of the largest and expected to be the most successful convention ever held by the association.

The first session was called to order this morning at ten thirty o'clock by the president of the district. Following devotional exercises B. M. Fast, of the Clearfield Presbyterian church made the address of welcome to the delegates. The address of the morning was delivered by N. A. Ogden, president of District No. 1. At eleven o'clock the registration and assignment of delegates took place. The convention adjourned shortly before twelve o'clock.

The afternoon session opened at one-thirty with a larger attendance than the morning meeting. Devotional exercises were led by Ensign Robert Henderson, of the Clearfield Salvation Army which was followed by the appointment of committees for the ensuing year. Reports from the district officers and from delegates were made which showed the work done during the past year accomplished much good.

The following is the program of the convention.

BOMB SHEL TESTIMONY GIVEN IN ORPET TRIAL

Miss Lambert Threatened to Kill Herself, Says Witness

Court Room, Waukegan, Ill., June 13.—(By United Press) That Marian Lambert threatened to kill herself a few days before she was found dead in Helma woods was the bomb shell testimony that Josephine Demers, Marian's closest friend, sprang in the trial of Will Orpet for Marian's murder this afternoon. The suicide threats, Josephine stated were made the Sunday previous. It was at Marian's birthday party four days before her body was found.

The testimony came on cross examination by the defense after the state which had hoped Josephine would be its principal witness succeeded in drawing from her only statements that pointed toward suicide.

"Marian was frequently depressed and melancholy when alone with me but when in company with others she was abnormally gay," Miss Demers testified. On the Sunday afternoon of her eighteenth birthday she had a crying spell. She came to me and said, "Oh, Joe, I can't be happy."

Then she threatened to kill herself if Orpet married Celestia Yuper. I kidded her about it and threatened to tell her parents about her relations with Orpet after she was dead. "Don't tell my father," she said. Frequently I told Marian that I proposed to tell her mother.

Governor to Appoint New Road Commissioner Soon

Harrisburg, June 13.—Governor Blumberg will name a highway commissioner to fill the vacancy created by the death of Robert J. Cunningham in the very near future. The appointment, it is said, will be the first of several to be made by the executive before he takes his accustomed vacation.

While a number of candidates are being quietly pushed, it is generally believed on Capitol Hill that the chances between Charles E. Patton, the present secretary of agriculture, and Frank S. Black, of Somerset, with Patton standing the best chance. Patton's friends are urging his ability as an organizer, his business experience and the fact that the farmers of the state have confidence in him as his chief assets.

While reports have been current that the now vacant post of insurance commissioner would not be filled until after December, when Charles Ambler, the defeated candidate for the Pennsylvania nomination as auditor general, was eligible for the job, there is a persistent rumor that William A. Magee, now examiner-in-chief of the state insurance department, is being seriously considered for the place. Ambler could not be named until after his term as a member of the legislature expires. The governor must also name a manager for the insurance fund and a chief tax marshal, besides a number of men for minor posts in various departments. It is stated that the recommendation made by the "governor's friends at Philadelphia" will be given serious consideration as far as the tax marshal post is concerned. Regarding the appointments in general, the governor is considered absolutely certain that no Penrose or other name will be placed on guard. There is no doubt that the administration has been convinced that the "reform party" has any place in the "reform party." The first test of the governor's policy in this respect will be the appointments of the board of directors of the state insurance fund. The appointments must come before the legislature on June 15. It is also rumored that William A. Magee, now examiner-in-chief of the state insurance department, is being seriously considered for the place.

RECIPE TO CLEAR A PIMPLY SKIN

Pimples are Impurities Seeking an Outlet Through Skin Pores

Pimples, sores and boils usually result from toxins, poison and impurities which are generated in the blood and then absorbed into the pores of the skin through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to normal activity, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive harmless and is made from the acid of grapes and lemon juice, combined with lithia. Here you have a pleasant, effective, and safe drink which usually makes pimples disappear; cleanses the blood and is excellent for the kidneys, as well.

BELGIAN CAPITAL NOW OVERRUN WITH SPIES

Everlasting Espionage Makes Life For Belgians a Burden

Maastricht, June 12.—(By United Press.) Rumor at its worst or Constantinople under Abdul Hamid never have been so overrun with spies as Brussels is at the present time.

Everlasting espionage has made life a burden for the Belgians and nowhere in the country are conditions so terrible as in the capital, according to reliable information smuggled across the frontier, despite all the vigilance of the kaiser's secret agents. The spies are declared to be well paid but only according to results. They do not draw regular salaries, but get their rewards on the strength of their reports' volume and supposed value.

Consequently, if they have no genuine information to turn in to their superiors, it is charged that they manufacture it. To be accused by them means arrest and much difficulty at the best. It is more likely to mean prolonged imprisonment.

It may mean a firing squad. A reign of terror has resulted. No body feels safe, even in the privacy of his own home. The people live in a constant state of nervous dread. A tap on the shoulder, prison and perhaps, death may come at any instant.

In Brussels alone it is declared there are 1,500 spies. How busy they are is proved by the extravagant style in which they live.

Whenever funds run short fresh victims must be found.

Women are numerous among the secret agents. They may be found all up and down the social scale, from the relative of General von Bissing, who took advantage of her position to keep an eye on the most exclusive residences, down to the humblest seamstress or domestic servant.

There are officers' and professors' wives, who keep watch in middle class circles.

There are the demimondaines, who send in reports from the theatres, restaurants and boulevards.

There are men formerly prominent in business, of which now, practically, there is none, who use their former connections and acquaintance to keep the German authorities posted concerning doings in financial and industrial circles.

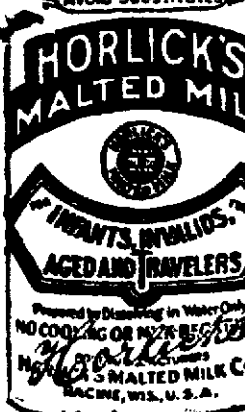

Even the most ordinary working man is carefully watched.

A case is reported from the Rue de Flandre, in Brussels, where the driver of a brewery wagon and his assistant were arrested because, after they had unloaded a heavy barrel of beer, one of them remarked: "The Kaiser himself could not have done it so neatly."

MANY VOTES AWAIT THE HUSTLERS IN THE BIG AUTOMOBILE CONTEST

(Continued From Page One)

activity and determined effort will surely bring success.

It must be remembered also that this campaign and competition for the \$1,400 in fine prizes is no light or trifling matter. The prizes selected and offered by the Progress are of the very highest order and the contest as a whole or worthy of the serious consideration and hearty support of every fair minded person. While the competition will be carried on in the most friendly manner, it will nevertheless, be a very important and serious matter for those who are taking part. It is therefore the business of the contest department to see that interests of all contestants are carefully guarded and that all have the same privileges and opportunities.

The extremely high order of the contest plans and prizes, as well as the very representative personnel of the candidates gives the Progress contest a very unusual aspect and places on a plane far above that of the average campaigns of similar character. The winning of brand new, high grade automobile of a reliable and exceedingly popular make, with every modern equipment is certainly a matter of great moment to all. This prize is only one of the many that are offered absolutely without cost, all of which are indeed well worth working for. The winning of the prizes will carry with it much honor for the winners and will be a mark of victory—an undisputable declaration of achievement. Those who go into the contest getting in an earnest and determined manner are sure to meet with very gratifying results, and during these early days and weeks of the race will the success of the contenders be determined by the effort and tact that they use.

The contest department of the Progress office will be open until 9 o'clock tonight and all candidates should make an effort to turn in as many votes and subscriptions as possible in order to keep their published vote up in the paper. This is exceedingly important during the early stages of the contest. All questions will be gladly answered and the contest manager invites inquiries.

"COLONEL BILL" THE ONLY DELEGATE IN ST. LOUIS

William Fairman Refuses to Ride on Machine Special—Wears Conventional Black

Walter J. Christie, staff correspondent, sends the following to the Pittsburgh Gazette Times:

St. Louis, June 13.—Col. "Bill" Fairman, of Punxsutawney, is the only Pennsylvania delegate to the Democratic National convention in the city. He arrived yesterday and is quartered at the New Plaza, the "dry" hotel National Committeeman A. Mitchell Palmer selected as the headquarters for the Keystone representatives.

A year or more ago when President Wilson had a postmaster to name in Punxsutawney he failed to notice Col. "Bill" who figured that a half century of loyalty to the Democratic party ought to bring its reward. Mr. Palmer, who places his O. K. on Pennsylvania postmasters, decided that some other Democrat in Groundhogville was more deserving than the picturesque Mr. Fairman.

Busted Machine State

In the recent primaries Col. "Bill" showed the Democratic machine in Pennsylvania that if he could not get a postmaster, he could bust the delegate state in the Twenty-seventh Congressional district. He is here, Wilson with his credentials in his pocket and W. L. Wall feeling independent. He remarked, "that he is here to vote as he 'thinks'." The Colonel intimated Ashley Metracken that he had a place on the Pennsylvania special, but he declined any gratuity and just to show that his heart still beats true to the party of Jefferson, he sent in a contribution of \$50 to the campaign fund for this fall's election. Fairman Col. "Bill" has a truck with him. St. Louis is going to miss a good deal. Fairman was elected in 1904, but the scarlet letter having been cast off.

RETIREMENT OF ADMIRAL FISKE

Washington, D. C., June 13.—The United States navy lost one of its best known officers today by the retirement for age of Rear Admiral Bradley A. Fiske.

Admiral Fiske was one of the last survivors on the active list of the officers who fought with Dewey at Manila Bay. Until about a year ago he was aid for operations in the Navy Department, a position he relinquished because of views concerning the administration of the various fleets that did not coincide with the ideas of Secretary Daniels. Subsequently he was attached to the Naval War College. This spring he was called upon to testify before the House Committee on Naval Affairs and was outspoken in his criticism of the navy.

Admiral Fiske was born at Lyons, N. Y., June 13, 1854, and was graduated from the Annapolis academy in 1874 with second honors in his class. He was navigator of the Petrel at the battle of Manila, and was reported by her captain for "eminent and conspicuous conduct in battle" and by Admiral Dewey for "heroic conduct."

As a flag officer he served as division commander with marked success and was at the head of the fleet tactical board. In training for the duties of higher command he had an unusual experience. Twice in attendance at the Naval War College, he afterward served as a member of the general board. He was one of the joint board on the Panama Canal defenses.

In the course of his varied service Admiral Fiske has written many articles of great interest and instructive value on professional topics, particularly on naval policy and strategy and tactics.

He is also the inventor of a number of valuable instruments and apparatus, most of which are for naval use. His most important inventions are an apparatus, for lowering and hoisting ship's boats in a s-w-y, an electrical range finder, the naval telescope sight, the electric warning whistle which has been used in all recent ships, the electric semaphore of day signals, the naval telescope mount, the turret range finder, and the standard, a portable optical instrument for quickly determining the distance of a vessel, when the height of its mast is known, now in use in all our ships. His naval telescope has eliminated all errors in sighting heavy guns at sea, and is nearly the most important invention of recent years.
